THANKS TO ALL OF OUR CUSTOMERS

May 21, 2012

Added Freon, cleaned the outside unit, patched a hole on inside unit, replaced & installed UV lite, disposed of old UV lite. Discussed alternatives for what is needed to cool & heat house more evenly. Discussed options for fixing slow leak in system. Recommended replacing coil instead of trying to sell me a new unit.

Work was great. Two months later the house is still cooling very well (better than when I bought the house new. Very professional, knowledgeable and thorough. I will definitely use again to purchase new coil and future maintenance.

June 22, 2012

Really liked working with Citywide. Very responsive, punctual, professional and did the job they promised.

Installed a 3.5 ton unit in the upstairs attic of our two story house. Came out to diagnose the problem, refilled the Freon to see if the system could hold it. When it didn't hold, they applied the cost of the attempted fix to the new unit.

February 02, 2012

Repaired our air conditioner and installed a new heater.

March 16, 2012

The technician from Citywide AC and Heating showed up on time and with a great attitude. He performed an AC checkup, checked volts, amps, pressures, temperatures, washed outside unit and added three pounds of r-22 Freon. All operations and functions of the AC unit checked out to be normal.

When my AC started to blow hotter and seemed like my electric bill was rising, I decided to get the unit serviced after 8 years of being in my home. I searched Angie's List and came across Citywide AC and Heating. I am very happy that I called them out to repair and service my AC unit.

The technician that was sent out on my service call was very helpful and informed me of what I needed to do in the future to keep my AC unit running smoothly. The AC service performed was very quick and reasonably priced. The technician also checked all of the temperatures in my house to ensure proper cooling from the unit.

I would not only highly recommend Citywide AC and Heating, but I will be using their service in the future.

August 03, 2012

I called Citywide AC Service because one of my rental units was freezing up, a Freon leak was diagnosed in my evap coil, we scheduled a replacement for the next day, the guys showed up on time and are

always courteous. They replaced the original 2.0 ton air handler with a new one. Job took a few hours and when they were done they cleaned up after themselves. Then I had a happy and cool tenant.

I have used Citywide AC in the past and I will continue to use Citywide's AC Service's because they are honest, dependable and very reasonable with their pricing.

I have a couple of rentals around town and have used C AC Services before. I am pleased with their service and skills and pricing. Great experience every time, the technicians are clean, professional and dependable. I have found my AC service company

April 09, 2012

They came to see what my AC was cooling off. Discovered the compressor was gone/dead. Replaced with a unit and the house is cooling off wonderfully.

April 02, 2012

The cooling fan had quit working on my AC Unit. I called Mike and very shortly he was at my door. The problem was diagnosed within minutes and Mike had the correct replacement part in his Service Truck!

A complete checkup was performed and my AC system was charged to meet proper cooling operation specifications. It is a pure pleasure to work with "City Wide AC & Heating". Thanks for the COLD AIR! Highly recommended! Call em' at (512-623-1759)

August 03, 2012

AC system froze up... had a Freon leak in evaporator coil... Citywide AC Service replaced the evap coil, and charged the system. They were professional, on time. I am a satisfied customer

Great job and a great price... they cleaned up after the job was complete. I will use Citywide Air Conditioning service again!
